Also present were:

Tricia Adams	District Manager

Residents	

The following is a summary of the discussions and actions taken at the July 13, 2023 meeting. A copy of the proceedings can be obtained by contacting the District Manager.

FIRST ORDER OF BUSINESS

Roll Call

Ms. Adams called the meeting to order at 1:09 p.m. and called the roll. All Supervisors were present.

SECOND ORDER OF BUSINESS

Public Comment Period

Resident Jill Mulhere of 1211 Radiant Street thanked the Board for upgrades to the lattice at the entrance. Resident Lester Blades of 1530 Euston Drive did not see any information in the agenda package on The Stables. Ms. Adams would report on this item later when the Board reviewed Action Items. Mary Jean Blades of 1530 Euston Drive voiced concern with a developer

leaving trailers on the opposite side of the road, causing difficulties when she tried to back out of her driveway.

THIRD ORDER OF BUSINESS

Approval of Minutes of the June 8, 2023 Meeting

Ms. Adams presented the minutes from the June 8, 2023 meeting, which were reviewed by District Counsel and the District Manager.

On MOTION by Mr. Dryburgh seconded by Mr. Goldstein with all in favor the Minutes of the June 8, 2023 Meeting was approved as presented.
--

FOURTH ORDER OF BUSINESS

Consideration of Proposal for County Road 532 Landscape Enhancement

Ms. Adams presented a proposal from Yellowstone Landscape (Yellowstone) for landscape enhancements in the amount of \$6,393.11. Mr. Scheerer worked with Yellowstone to secure this proposal for the area across from the Fire Station in the middle of County Road (CR) 532. The Loropetalum was old and Mr. Scheerer wanted permission from the Board to remove and replace it with Zoysia grass and adjust the irrigation system. Mr. Goldstein questioned whether there were any other options. Mr. Dryburgh recalled the Board preferring to rip out the Loropetalum to save money. Mr. Scheerer pointed out that the Board decided to be relieved from maintenance on the south side of CR 532, the Polk County side, which was turned over to Osceola County for maintenance. However, the CDD currently maintained the median from I-4 to Old Lake Wilson Road and the north side of CR 532 and the Board never discussed discontinuing the maintenance of CR 532. Ms. Adams recalled that the Board discussed it and ultimately decided it was worth the expense to continue maintaining it and have the ability to control the level of landscaping.

Mr. Goldstein questioned whether the District Engineer expected any issues with the county, if the CDD decided not to maintain the center median on CR 532. Mr. Boyd felt that if the CDD stopped maintaining it, it would cause a problem, but the county would not care if the CDD ripped everything out and replaced with grass. Ms. Adams stated the Interlocal Agreement between the District and Osceola County specified that the District was responsible to maintain the landscaping. The agreements requires the landscape to be restored to the original landscape

plan if the District wants to amend the Interlocal Agreement. For example, on the south side of CR 352, the county requested that the District remove landscaping and irrigation and re-sod it before the County assumed maintenance responsibilities. If the Board wanted to amend the Interlocal Agreement again, the Board needed to take action by vote. The County must agree to the amendment and there would be some legal expense go through the amendment process. Mr. Goldstein wanted to consider any cost savings at the next meeting. Mr. Greenstein did not want to remove the median as it was part of the look of Reunion, but would look at it if the Board wanted to look at other maintenance alternatives. Ms. Wispelwey wanted to review the situation further and possibly remove what was on the median and replace it with grass or keep it at the current standard. Mr. Greenstein noted sidewalk maintenance on CR 532 is a separate issue because the CDD is not responsible for the maintenance of the sidewalks in that area. Ms. Adams would include the median landscape maintenance item on the next agenda.

FIFTH ORDER OF BUSINESS

**Consideration of Proposals for Roof
Replacement at Seven Eagles**

- A. Advantage Roofing, Inc.**
- B. Springer-Peterson Roofing & Sheet Metal, Inc.**

Ms. Adams presented proposals from Advantage Roofing, Inc. (Advantage) in the amount of \$134,962 and from Springer-Peterson Roofing & Sheet Metal, Inc. (Springer-Peterson) in the amount of \$157,542 for replacement of the Seven Eagles Center roof. This was a Repair and Maintenance (R&M) project that the Board considered as part of the current fiscal year and provided funding for. In the budget, the Board allocated approximately \$172,010. Mr. Scheerer reached out to several vendors, but these were the only ones that provided a bid. They were equal in materials and warranties, utilizing a peel and stick versus felt paper. There was a new code requirement for six nails per shingle. The proposals also included the pool pump house roof, which had asphalt shingles. The main Seven Eagles building had asphalt and thermoplastic roof. Mr. Scheerer was familiar with both vendors. The facility must be closed, especially during the demolition work and cleanup. Mr. Goldstein noted a \$23,000 difference between the proposals. Mr. Greenstein pointed out that Advantage offered a five-year workmanship warranty on all leaks and defects, which was substantial versus the two-year warranty that Springer-Peterson offered. Mr. Greenstein asked if any CDDs used Advantage. None of the Districts that Mr. Scheerer was involved with used Advantage, but they were used by other Districts.

On MOTION Mr. Greenstein seconded by Mr. Goldstein with all in favor the proposal with Advantage Roofing, Inc. for roof replacement at Seven Eagles in the amount of \$134,962 was approved.

SIXTH ORDER OF BUSINESS

Review and Acceptance of Pavement Management Plan

Ms. Adams presented the Pavement Management Plan, which was prepared by the District Engineer. Mr. Boyd presented the report and noted typos that would be corrected. Moving forward to develop the scope for roadway repairs in the next two years, they were taking core samples. Once the work was completed, a scope of work would be prepared. Mr. Goldstein felt that it was a comprehensive report. Mr. Greenstein requested a quick synopsis of the tables in order for the Board to see the magnitude of the work and the order it would be accomplished. Mr. Boyd noted that Table 2 provided recommendations on the work to be completed as soon as possible. Table 3 provided recommendations on work to be completed within the next two years. Table 4 provided recommendations on work to be planned between 2025 and 2030 and Table 5 provided recommendations on work to be planned between 2030 and 2035. These dates could be pushed back further based on the pavement conditions. The following areas were addressed:

- **Urgent:** Tradition Boulevard from Spine Road to I-4, due to significant degradation.
- **Needing Attention:** The pavement approaching the water park from Spine Road.
- **Addressed Immediately:** Spine Road from CR 545 to the gatehouse, due to base degradation. The repair would involve removal of all asphalt and re-doing the base before re-surfacing.

Core samples were requested at those locations to determine the depth of the milling and resurfacing.

- **Recommended to be Completed Within Two Years:** Reunion Boulevard from CR 532 to the traffic circle. Portions appeared fine, but in many places the pavement was uneven with alligator cracking, especially exiting towards CR 532 where the asphalt was starting to separate.
- **To be Completed in Two Years:** Remaining portions of Spine Road
- **To be Re-surfaced Between 2025 and 2030:** Roads in good/fair condition.

➤ **To be Re-evaluated after 2030:** All remaining roads.

Mr. Boyd stated crosswalks and stop bars needed to be re-stripped and portions of the main roadways; Tradition and Reunion Boulevard needed additional re-striping. Mr. Dryburgh voiced concern about the impact of inflation over a five-to-ten-year period because if they waited until later, it would be a more difficult process due to drivers using it as a cut through and questioned the percentage of roads to be done sooner versus later. Mr. Boyd stated once they obtained prices on the initial repairs that were urgent, they could roll the unit prices over the entire program, factoring in 5% or 7% for inflation. In the next two weeks, they would complete the core samples, prepare the specifications and obtain bids. Mr. Boyd would look at recent paving costs, as he wanted to be in the position for work to start after the first of the year so that the work could be completed in the Spring.

On MOTION Mr. Greenstein seconded by Ms. Hobbs with all in favor the Pavement Management Plan was approved.

SEVENTH ORDER OF BUSINESS

**Consideration of Proposals for
Geotechnical Services for Pavement
Evaluation**

A. UES

B. Intertek PSI

Ms. Adams presented proposals from UES in the amount of \$6,695 and from Intertek PSI (PSI) in the amount of \$15,920 for geotechnical services for the pavement evaluation. Mr. Boyd stated based on visual inspections that were performed, they identified 17 locations for core samples. Mr. Dryburgh questioned the major difference in the proposals. Mr. Boyd indicated that the written scope for UES excluded some items, but they had the required scope. They would not require extensive utility locates, but after obtaining the core samples, UES would restore the core with asphalt, which Mr. Boyd would obtain written clarification of and provide to Ms. Adams. Mr. Greenstein pointed out that Reunion West approved the same proposal.

On MOTION Mr. Greenstein seconded by Mr. Goldstein with all in favor the proposal with UES for Pavement Evaluation Geotechnical Services in the amount of \$6,695 was approved.

EIGHTH ORDER OF BUSINESS

Consideration of Proposal for Increased Preventative Maintenance Services at Seven Eagles Fitness Centers

Ms. Adams reported that there were two Fitness Centers at Seven Eagles, the Fitness Center and Functional Fitness Center. The Board currently had an agreement with Fitness Services of Florida Inc. for monthly preventative maintenance services of \$300 per visit or \$3,600 annually. Twice monthly visits were being recommended at the same rate for both Fitness Centers, due to increased usage at Seven Eagles because Reunion Resort Fitness Center was temporarily closed. The proposal included oiling, lubrication and deep cleaning of the equipment as well as an expedited repair time because with this frequency of service, they were not holding up repairs and installation of parts for the treadmills and other pieces of popular equipment. If the Board approved this, it would increase the Fiscal Year 2024 budget amount to \$7,200. Mr. Dryburgh questioned when Kingwood was re-opening the Reunion Resort Fitness Center because if it was of excessive duration, they should pay the additional expenses due to closing their facility. Ms. Adams noted that the Fitness Centers were owned by the District and the responsibility of the District to maintain. Ms. Hobbs did not see how they could go back to them and tell them to pay for the cleaning as people had the right to use it, whether there was another Reunion Resort gym or not. Ms. Wispelwey felt that the Board should do what they could to keep the people happy; however, this could go on for a long time and felt that it was not unreasonable to ask Kingwood to put that money towards the maintenance. Mr. Dryburgh was not happy with the way that Kingwood treated the Board. Mr. Greenstein agreed with Ms. Wispelwey as the District allowed Kingwood to move their fitness equipment into one half of the Heritage Crossing Community Center (HCCC) and could not recall if there was financial consideration in the agreement. Ms. Adams would include the item on next month's agenda for Board review.

On MOTION Mr. Dryburgh seconded by Mr. Goldstein with all in favor the proposal for increased preventative maintenance services at Seven Eagles in the amount of \$7,200 annually was approved.

Ms. Adams questioned the direction to staff in terms of communication with Kingwood and whether the Board wanted to wait until they reviewed the situation further and look at the terms. Ms. Wispelwey wanted to start discussions with Kingwood about the District receiving extra money because if they did not light a fire, they would be seeing an increase of people in

October or November. Mr. Greenwood stated they would discuss the agreement between now and the next meeting and GMS could have dialogue with Kingwood.

NINTH ORDER OF BUSINESS

Consideration of Temporary Construction Easement with IMF Developers, LLC.

Ms. Adams presented a Temporary Construction Easement with IMF Developers, LLC. (IMF) and a diagram of the area being discussed, which was around The Terraces. They were proposing to add 102 new units to complete construction in that area. The CDD owned property around the construction site, including the roads. Ms. Trucco explained that the developer, IMF; landowner, 7500 Mourning Dove Reunion, LLC, and the General Contractor, LB Construction of South Florida, Inc. agreed to sign the Temporary Construction Easement in the Agenda and that it was in the best interest of the District to execute it. It was for the construction of 102 units at The Terraces at Reunion Resort and Club. The Development Plans, which was approved by the county, were also attached to the Temporary Construction Easement. At this time, they were planning to start construction on the southern parcel shown in the attachment, including the installation of a fence. The Temporary Construction Easement stated the District would be indemnified for any damages resulting from their construction. They also agreed to restore the District's property at their expense to its original condition, and if they failed to do so, within 30 days, the District could restore the property and they would be responsible for reimbursing the District for the restoration. It was anticipated that construction would take 18 months and would start in 60 days. The District Engineer already reviewed the Temporary Construction Easement and agreed with it. The developer planned to use a gravel road off of Osceola Polk Line Road that was outside of the District, but there was a sliver of District property that they must use. Discussion ensued and Ms. Trucco requested that the Board approve the Temporary Construction Easement in substantial final form and delegate authority for a Board Member to execute it. Mr. Goldstein requested that Mr. Greenstein be delegated authority.

On MOTION Mr. Goldstein seconded by Ms. Hobbs with all in favor the Temporary Construction Easement with IMF Developers, LLC. and delegating authority to the Chairman to execute it was approved.

Although Mr. Greenstein wanted to see The Terraces completed, there would be construction traffic and trusses on property being built on Excitement Drive. Ms. Adams requested that any unsafe roadway condition be reported to Security. Mr. Greenstein would drive around with Mr. Victor Vargas, Director of Reunion Security, in order to better manage it as well as other construction.

TENTH ORDER OF BUSINESS

**Consideration of Proposal from Guardian
Access Solutions for RFID Reader at
Reunion Village Gates**

Ms. Adams presented a proposal from Guardian Access Solutions (Guardian) for RFID Reader at the Reunion Village gates in the amount of \$16,320, which was requested by the Board. There was only one traffic lane staffed 24/7/365 by a security guard that must open the lane manually as vehicles stop at the gate. His proposal was presented so owners can have automatic access. Mr. Scheerer explained this was a TransCore RFID reader system, which the Board requested and would merge with the existing Smart Pass system at the other gates in Reunion. Guardian was formerly Access Control Technologies, which originally installed the Spine Road gates. The proposed amount of \$16,320 was a non-budgeted item for Fiscal Year 2023. Mr. Greenstein noted that residents did not have to roll their window down as the reader would pick up the transponder and cards. Mr. Goldstein was in favor of it. Ms. Adams pointed out that this gate would not be uniform as other gates had two entrance lanes versus this gate, which only one traffic lane, but there could be automatic access for residents. Mr. Goldstein noted that this gate would never get the traffic that others did and was not any shorter for people cutting through; therefore, they would not do it often.

<p>On MOTION Mr. Goldstein seconded by Ms. Hobbs with all in favor the proposal with Guardian Access Solutions for RFID Reader at Reunion Village Gates in the amount of \$16,320 was approved.</p>

Mr. Dryburgh questioned the technology as the gates at the entrance were down the last week-and-a-half. Mr. Scheerer explained that one of the eMerge panels failed, which he was working with ACT to resolve and did not realize that it was down for so long as he was out last week. Guardian was in the process of changing those out at several properties including this one and this system was approved by the Board at the Spine Road gates, which were currently under

construction. Since it had newer technology, they would not have this issue. Mr. Goldstein understood that Mr. Scheerer was out last week, but questioned who Security could contact in an emergency. Mr. Scheerer pointed out that he was always available 24/7 as part of his job, but Mr. Vargas had the authority to contact Guardian. When this issue occurred, Mr. Vargas contacted Guardian and they ordered the part.

ELEVENTH ORDER OF BUSINESS

Staff Reports

A. Attorney

- **Approval to Engage District Engineer to Analyze Bond Requisitions Relative to Construction Costs for The Stables Parcel (*Item 11Aii*)**

Ms. Trucco reported an update on the sale of stables question. The District Engineer would need to complete a review of the requisitions for the bond issuances to determine the exact amount of bond proceeds used for the construction of the stables. Then District's Bond Counsel at Greenberg Traurig would perform a tax analysis to see if the bonds could be redeemed and then determine how much of the outstanding bonds needed to be redeemed. That amount would set the minimum purchase price and depending on that amount, the Board may want to order an appraisal to see if the property was worth more today than the amount of bonds to be redeemed. Greenberg Traurig estimated it would take 10-20 hours, costing \$10,000 to \$20,000, to determine the non-essential use, evaluate the options and calculate the needed remedial redemptions for the bonds in order to sell the stables. To determine the amount of bond proceeds used for the stables, Mr. Boyd indicated that it would take one day for the data collection and initial review of the requisitions, one day to break out the costs from those requisitions and two hours to prepare a brief report at a cost of \$4,000 to \$5,000. The total amount for both professionals was \$14,000 to \$25,000.

Mr. Greenstein questioned the percentage of the bonds that would have to be redeemed. Ms. Trucco stated that the bond issuance could not have more than 5% non-qualified private use. Mr. Greenstein believed that an estimate could be perceived from the Amortization Table and from the age of the infrastructure, which was the original series of bonds, but questioned whether there was any situation where they could not dispose of that property. Ms. Trucco confirmed that they could dispose of it, but the District could potentially end up spending more than the parcel was worth. Mr. Greenstein understood that the use of any asset may have changed over time and there could not be significant activity that removed the 5%, but disposing of it, did not factor into it. It was a matter of how many bonds were still outstanding and how the appraisal factored in. Ms.

Adams clarified it had to do with the amount needed to be redeemed and if it was more than the appraised value, the District could see if there was a willing buyer. If the redemption amount is less than what the parcel is likely to be worth, the CDD can get an appraisal and sell it at market value. Mr. Greenstein asked if there was any circumstance that would prevent the District from disposing of that asset. Ms. Trucco confirmed that the District could do it, but needed to find out what bond was used to finance it and what percentage of the bond needed to be redeemed. Ms. Adams pointed out that the District could not proceed until they had the analysis from the District Engineer. Ms. Trucco recalled seeing that approximately \$300,000 of bond proceeds may have been used to construct the stables and that the 5% non-qualified private use requirement was of the entire bond issuance. Mr. Greenstein expected it to be under the 5%.

The Board suggested leasing the stables, but Ms. Trucco indicated that a lease triggered the non-qualified and the District was likely already over the 5% based on the last review when the Management Services Agreement (MSA) with Kingwood was evaluated and could not lease it, but could enter into a type of management service agreement. Mr. Greenstein felt as part of comparative analysis, they could determine the ongoing costs to maintain it, renovate it and have it managed. Mr. Goldstein agreed that the simplest way was to have an MSA. A Resident asked if there were any time constraints on the MSA. Ms. Trucco noted no time constraints but the ones that she drafted had a termination clause to protect the District. The Resident asked if an improvement was made to the property, upon termination whether it would be paid back. Ms. Trucco explained that the non-qualified private use restriction could be triggered for a joint venture between the CDD and a private entity, which would not be permitted, but the CDD could put in any renovation with CDD money. If the District was going to spend \$20,000 to \$30,000 on an analysis, Mr. Goldstein proposed selling it because it was not benefitting the District or ask if Bond Counsel could split the difference and charge \$15,000. Ms. Wispelwey agreed. Mr. Boyd must extract the amount of money dedicated to the stables, since the requisitions covered multiple items. Mr. Goldstein did not want to spend the money and then having discussion a year later. Mr. Greenstein pointed out this was the reason that they were having this discussion now.

On MOTION Mr. Greenstein seconded by Mr. Goldstein with all in favor engaging the District Engineer to review all requisitions for the bond issuances to determine the exact amount of bond proceeds used for the construction of the stables was approved.

i. Presentation of Memo Regarding Ethics Training for Elected Officials and Other Legislative Updates

Ms. Trucco presented a Memorandum regarding the ethics training for all Supervisors and other legislative updates. There was an amendment to Section 112 of the Florida Statutes, requiring each Supervisor as of January 1, 2024, to complete four hours of ethics training each calendar year. The Florida Commission on Ethics stated that the training could be completed in 50-minute increments and that there were free videos that could be utilized on their website. Viewing four videos would satisfy the requirements. It was recommended that the Supervisors complete the requirements by July 1st since the self-certification was expected to be on the Form 1. There was a change in the Concealed Carry Law to allow for carrying without permit or instructional course, but carrying weapons to CDD meetings was still not permitted under a different statute. There was also a change to Section 112.23 of the Florida Statutes so that beginning July 1, 2023, a Supervisor was prohibited from requesting the removal of content or accounts from social media platforms, as well as initiating agreements or relationships with a social media platform for the purpose of content moderation. Lastly, there was a revision to Section 287, prohibiting any Supervisor from requesting documents or giving preference to a vendor based on their social, political or ideological interests, when considering government contracts.

ii. Approval to Engage District Engineer to Analyze Bond Requisitions Relative to Construction Costs for The Stables Parcel

This item was discussed.

Ms. Trucco reported that Bond Counsel reviewed the Irrigation System Operating Agreement with Kingwood and that it was circulated to staff. Ms. Adams had some questions, which were forwarded to Kingwood's counsel. Ms. Trucco just received the exhibits, which she wanted to review before distributing to the Board as she had some follow up questions for their attorney. It was fairly cumbersome and Ms. Trucco hoped to provide it to the Board a week before the next meeting.

B. Engineer

Mr. Boyd reported on the annual certification, the report on Spine Road and the gate improvements in Reunion Village. He received as-built drawings, test results, completed his

review, anticipated starting the final closeout and was working with Mr. Scheerer to get the gate contractor what they needed.

i. Review and Acceptance of Annual Engineer's Report - ADDED

Ms. Adams reported as part of the Bond Indenture, the District was required to have an Annual Engineer's Inspection. The report in the agenda package, identified that the District's master infrastructure was maintained in good condition, there was adequate funding in place to maintain the infrastructure and adequate insurance on the infrastructure.

On MOTION Mr. Dryburgh seconded by Mr. Goldstein with all in favor the Annual Engineer's Report was accepted.

C. District Manager's Report

i. Action Items List

Ms. Adams presented the Action Items List. Mr. Dryburgh asked if they stopped using the water and replacing with plants in the Seven Eagle fountain as an alternative. Mr. Scheerer would look into it. Six different vendors were contacted and there was one quote for two new four-tier fountains with color changing lights, tile on the outside and filtration system for \$46,992 versus \$100,000 for new fountains. Much of the cost was for the filtration system. Mr. Greenstein felt that the fountains were a key feature of Linear Park and wanted to see renderings. Mr. Scheerer would include the proposal in the next agenda package. Mr. Scheerer reported that the trees were trimmed. Mr. Dryburgh noted they look great. Ms. Adams would remove this item from the Action Items List. Mr. Greenstein reported that the residential trees were trimmed by Florida Commercial and they were doing a good job. By raising the canopies, they have definition, which provides for a different look. Ms. Hobbs questioned how the traffic calming was impacted by the Pavement Management Plan since they were not going to repave the road in front of the water park for two to three years. Ms. Adams asked if the Board wanted to add traffic calming to the scope for new construction or retrofit the existing roadways. Ms. Wispelwey wanted to look at traffic calming on Excitement Drive. Mr. Boyd stated depending on whether the Board wanted traffic calming, they could include it in the first repair package. Mr. Dryburgh felt that made sense. Ms. Adams provided a map of the property to the Director of Security and asked him to mark locations where traffic calming was recommended and if the Board agreed, forward it to the District

Engineer to provide recommendations on types of traffic calming. Mr. Boyd recommended a speed table that could slow vehicles to 25 miles-per-hour. Ms. Adams asked if the Board wanted to retrofit existing roads not being milled and resurfaced, designate as a new road resurfacing project or consider locations in the interim. Ms. Hobbs preferred to look at the roads that they wanted traffic calming to see how it worked to see if it was effective and proceed with the road repairs. Mr. Goldstein asked if Mr. Scheerer looked at the satellite dish. Mr. Scheerer confirmed that it was not the District's. Ms. Hobbs questioned the replacement of the air conditioners. Mr. Scheerer reported that the contractor was bringing in two at a time until all six were replaced. The first two were being set on July 18th.

ii. Approval of Check Register

Ms. Adams presented the Check Register from June 1, 2023 through June 30, 2023 in the amount of \$411,805.55.

On MOTION by Ms. Hobbs seconded by Mr. Dryburgh with all in favor the June Check Register was approved.

iii. Balance Sheet and Income Statement

Ms. Adams presented the Unaudited Financial Statements through May 31, 2023, which was for informational purposes. There were no unusual items and the May bond payments were now populated.

iv. Replacement and Maintenance Plan

Ms. Adams presented the Replacement and Maintenance Plan, which showed projections and when projects would be completed in 2023. The dates were updated each month. It was provided for informational purposes. A preliminary project list was provided for Fiscal Year 2024 for feedback from the Board, which would affect the budget for Fiscal Year 2024. It was based on the field conditions within Reunion and recommendations from the Reserve Study. There were the following potential projects:

- Roof replacement at three pool houses for Homestead and Heritage Crossings.
- Seven Eagles exercise equipment to replace treadmills, ellipticals or bicycles. Would be phased out over several years.
- Asphalt pavement management. This was only an estimate.

- Concrete sidewalk replacements
- Tree trimming

Mr. Scheerer clarified that it was a Class 2 tree trimming, which was performed several years ago in stages. It was for thinning of all the trees, cleaning them and ensuring that they had a 14 feet clearance on the roadway side and 8 feet on pedestrian sidewalks, per the Department of Transportation. The purpose was to ensure that the trees were in good shape, healthy and provided the proper clearance on CDD property.

- Signage for Reunion Village – No Parking allowance. Proposals would be provided to the Board at the August meeting.
- Pool equipment allowance.
- Seven Eagles Linear Park bollard lighting, due to persistent requests, especially during Winter months.
- Seven Eagles restroom partitions as broken doors could not be replaced.
- Seven Eagles pool and spa resurfacing.
- The Stables refurbishment.

Ms. Hobbs suggested benches on the left side of Reunion Boulevard past the main gate. Mr. Scheerer would discuss having benches with a concrete pad with Ms. Hobbs. The benches in the butterfly park were \$780 each.

D. Security Report

Ms. Adams reported that Mr. Vargas was not present, but a Board Member wanted to discuss having a procedure at the entrance gates when someone had automatic access or when a visitor was approaching the gate. Mr. Goldstein voiced concern with security guards not greeting guests and residents and allowing cars through without scanning cards, especially ride share drivers. Several times, Mr. Goldstein had to wake the security guard in order to have them open the gate and requested that the Board discuss what they expected from the security guards. Mr. Greenstein felt that security guards opening the gate without having any interaction was a serious issue. Mr. Dryburgh pointed out it was a daily event and there was a failure in the system. Mr. Greenstein felt that the points brought up by Mr. Goldstein were good points as the proper protocol should be followed by the security guards when interacting with guests, but not with residents because they had prox cards. Ms. Adams pointed out that there was an agreement with the Master

Association to provide security services, but there was no specificity to the requirements for greeting owners, but the Board could formalize a procedure or discuss with the Director of Security. If an officer failed to follow the proper procedure, it was documented. Mr. Goldstein requested that the security guard scan guest identification and stand up and greet residents or guests, if they were not busy performing another duty. Ms. Adams felt it was okay to request identification, but could not require it since these were public roads. Mr. Greenstein suggested Mr. Vargas be informed about the Board's concerns and try to reinforce the procedures. Ms. Trucco suggested having a one-page addendum to the current agreement for the preferred Code of Conduct for security officers.

Ms. Adams recalled that the Boards directed staff to schedule a joint workshop for the purpose reviewing agreements between Reunion East Community Development District or Reunion West Community Development District and the Reunion Resort of Orlando Master Association or Kingwood entities.

A binder with all agreements was presented to Board members. A table was presented to the Boards that included details of type of agreement, organization, effective date of agreement, expiration date of agreement and terms or costs of agreement. Ms. Adams presented the table line by line with Reunion East agreements being presented first in the table.

Supervisor Staley noted that the agreements are in overall good shape but he did want clarification on a few issues. He noted that many agreements referred to ownership of books and records. Mr. Staley asked for legal clarification on what private records would be available to the CDD. For example, if the records calculating security fees would be provided to the CDD if requested?

Ms. Trucco advised that the CDD has a public records provision included in agreements which is in accordance with Florida law. CDD documents and financials are subject to public inspection and that applies to the vendors who the CDD does business with for documents that relate to those agreements. There are also indemnification provisions if they fail to maintain records and the CDD is damaged.

Mr. Dryburgh asked about requesting security records related to security patrols and Ms. Trucco advised that records related to the service being provided should be able to be obtained.

Mr. Greenstein asked about the right to see the security personnel expenses and Ms. Trucco advised that it would be subject to the exact public records language in that specific agreement.

Mr. Barry questioned the right to access vendor records. Ms. Adams noted that some of the older agreements refer to the CDD maintaining public records and the vendor is asked to acknowledge that the CDD records are public records. The language in newer agreements may be different.

Mr. Greenstein reiterated that the CDD is a government, and our records are public. He also noted that the CDD pays a portion of the overall security expenses. The Master Association also pays for a significant portion of security services.

Ms. Trucco reiterated the CDD can ask for records related to the provision of service.

Ms. Whispelwey stated that Reunion Security is run by Kingwood. Ms. Adams noted the CDD contracts with the Master Association and the Master Association hires Reunion Security which is a Kingwood entity. Ms. Whispelwey inquired if the CDD could hire a different security service provider. Ms. Adams said the Boards have the ability to terminate agreements.

Ms. Trucco said that an alternative to looking at the Reunion Security expenses is to obtain proposals from other service providers. Ms. Harley noted that other CDDs pay more than Reunion CDDs for security.

Ms. Adams presented other license agreements for mailboxes, improvements at Carriage Pointe, license agreements for upgraded security equipment. Mr. Staley noted a gap in the security agreement. She also presented a Management Service Agreement for Heritage Crossings Community Center and The Stables.

There was discussion about the dumpster at The Stables and who manages the dumpsters. Ms. Adams indicated the dumpsters are managed by the Master Association.

Ms. Adams presented a recreational easement for the dog park and playground area owned by Kingwood and used by Reunion East CDD. Agreements for custodial services at pool facilities and Seven Eagles with Reunion Club of Orlando which is a Kingwood entity. A roof replacement agreement with Kingwood was presented and Mr. Staley inquired about the qualifications of workers and Mr. Scheerer noted the bid was provided as a result of a competitive bid process and that they were subcontractors of Kingwood from Georgia. Discussion ensued regarding the qualifications of contractors and treating vendors equally. Ms. Trucco noted that the Board can demand information regarding subcontractors per the terms of the agreements.

Ms. Adams presented other service agreements such as painting, parking enforcement, amended security service provider agreements, and agreement extensions.

Reunion West agreements included security agreements, license agreement with the Master Association, license agreements, a monument signage construction easement agreement with Kingwood, and a parking enforcement agreement.

Mr. Staley inquired about other issues with Kingwood such as the irrigation matter at Reunion East and the encroachment matter at Reunion West. Ms. Adams noted there is also ongoing discussion with Reunion East Board regarding future use of The Stables and Kingwood may become involved in that.

Ms. Trucco advised that the matters regarding irrigation and the encroachment are with Kingwood and she has been updating the Boards. Kingwood's counsel is reviewing comments provided by District counsel.

Ms. Whispelwey inquired about mailbox kiosks. Discussion ensued about no postal service being available at Reunion West Encore neighborhood. Mr. Scheerer noted mailbox kiosks are installed in certain areas of Reunion Village. Board members asserted that the post office views Reunion as a rental community so mail service is a challenge for Reunion residents. Mr. Greenstein reiterated mail service is not a CDD matter but the CDD supports the efforts of residents to improve mail service.

Mr. Barry inquired about any overall concerns and Ms. Adams noted there were no concerns from a business perspective nor from a delivery of service perspective.

Mr. Greenstein felt the Board met its responsibilities to review the agreements with Kingwood and affiliates.

There was no public comment.

The workshop was adjourned by Ms. Adams at 11:07 a.m.

Subject to and upon the terms and conditions of this Agreement and in consideration of the mutual promises set forth herein and other good and valuable consideration, the sufficiency of which is hereby acknowledged, the District and Contractor agree as follows:

1. **DEFINITIONS.**

(a) **Agreement.** The Agreement consists of: (i) this Agreement for RFID Reader Installation; and (ii) the Contractor’s proposal for services, dated June 14, 2023, attached hereto as Exhibit “A” (the “Proposal”). The Agreement represents the entire and integrated Agreement between the parties hereto and supersedes all prior negotiations, representation, or agreements, either written or oral. The Agreement may be amended or modified only as set forth below in Article 14. In the event of any conflict between the terms herein and term(s) in the Proposal, the terms herein shall prevail.

(b) **Services.** The term “Services” or “Work” as used in this Agreement shall be construed to include all activities and services set forth in the Proposal, and all obligations of Contractor under this Agreement, including any addenda or special conditions. If an addendum or additional work is agreed upon by the parties, the Contractor shall be subject to the terms of this Agreement.

2. **SCOPE OF SERVICES.**

(a) A description of the nature, scope, location and schedule of the Services to be performed by Contractor under this Agreement shall be as described in the Proposal. The area to be included under this Agreement may be amended by the mutual consent of the District and the Contractor.

3. **COMMENCEMENT OF SERVICES AND TERM.** Contractor shall commence the Work on the Effective Date and shall perform same in accordance with the terms herein, until completion, and as determined by the sole reasonable satisfaction of the District which shall be evidenced by the District’s payment to the Contractor.

4. DISTRICT MANAGER.

(a) The District's authorized representative (herein referred to as the "District Manager") shall be the District Manager of the District, which is Governmental Management Services – Central Florida, LLC, whose mailing address is 219 E. the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million (FAO 2001).

There are a number of reasons for this increase. One of the main reasons is the increase in the world population. The world population is expected to increase from 6 billion in 1999 to 9 billion by 2050 (United Nations 2000). This increase in population will lead to an increase in the demand for food.

Another reason for the increase in undernourishment is the increase in the number of people who are living in poverty. The number of people living on less than \$1 per day has increased from 1.1 billion in 1990 to 1.5 billion in 2001 (World Bank 2002). This increase in poverty will lead to an increase in the number of people who are unable to afford enough food.

A third reason for the increase in undernourishment is the increase in the number of people who are living in rural areas. The number of people living in rural areas has increased from 3.5 billion in 1990 to 4.5 billion in 2001 (World Bank 2002). This increase in rural population will lead to an increase in the demand for food.

There are a number of ways to address the problem of undernourishment. One way is to increase the production of food. This can be done by increasing the number of people who are working in agriculture, by increasing the amount of land that is used for agriculture, and by increasing the amount of fertilizer and other inputs that are used in agriculture.

Another way to address the problem of undernourishment is to increase the efficiency of food production. This can be done by using better farming practices, by using better seeds, and by using better irrigation systems.

A third way to address the problem of undernourishment is to reduce the amount of food that is lost. This can be done by reducing the amount of food that is wasted, by reducing the amount of food that is lost to pests and diseases, and by reducing the amount of food that is lost to spoilage.

There are a number of other ways to address the problem of undernourishment. These include increasing the number of people who are working in the food processing industry, increasing the number of people who are working in the food distribution industry, and increasing the number of people who are working in the food service industry.

The problem of undernourishment is a complex one, and it will require a number of different approaches to address it. However, it is clear that the problem is serious, and it needs to be addressed as a matter of priority.

1. According to Florida's Construction Lien Law (sections 713.001-713.37, Florida Statutes), those who work on your property or provide materials and are not paid in full have the right to enforce their claim for payment against your property. This claim is known as a construction lien. If your contractor or subcontractor fails to pay subcontractors, sub-subcontractors, or materials supply or neglect to make other legally required payments, the people who are owed money may look to your property for payment, even if you have paid your contractor in full. If you fail to pay your contractor, your contractor may also have a lien on your property. This means if a lien is filed on your property it could be sold against your will to pay for labor, materials, or other services that your contractor or subcontractor may have failed to pay. Florida construction lien law is complex and is recommended that whenever a specific problem arises, you should consult an attorney.

2. **All Contracts** are subject to approval of our credit department and office without exception. The person executing this contract must obtain the approval of the officer of the company for this contract to be effective under any conditions. **THIS CONTRACT CAN NOT BE CANCELLED ONCE WORK IS COMMENCED EXCEPT BY MUTUAL WRITTEN AGREEMENT OF THE PARTIES.**

Owner(s) shall make himself/herself available during work for clarification of specifications, approval of additional work and to provide adequate access to the property as may be required. Owner(s) acknowledges that the removal of permanently attached building materials often disturbs and vibrates the existing property. The noise, debris, and vibration generated from the work may cause inconvenience to Owner(s) and changes to Owner(s) property including but not limited to: interior wall cracks, flaking of wall paint, debris falling into attic, dust, disturbance to shrubbery and lawns, small divots or ruts in yard from equipment, small divots in the driveway from equipment such as roll-off containers and dump trailers. As a precaution, Owner(s) shall remove from walls or ceilings items such as, but not limited to, chandeliers, paintings, pictures and any breakables. Owner(s) shall remove or move at least 10' away from work area any outdoor furniture, grills, planters, etc. Contractor shall not be responsible for any of the aforementioned property damage or for any inconvenience experienced by Owner(s) as a normal consequence of the work. The company shall have no responsibility from damages from fire, tornado, windstorm, or other perils, as is normally contemplated to be covered by homeowner's insurance or unless a specified written agreement be made therefore prior to commencement of the work. Company shall not be reliable for failure of performances due to labor controversies, strikes, fires, whether, in ability to obtain materials from usual sources, of any other circumstances beyond the control of the company, weather of a similar or dissimilar nature. Acts of extreme nature voids all warranties. "Co." cannot be held responsible for any form of mold damage. **Manufacturer's warranty applies to materials. Workmanship warranty does not apply to items that were not replaced (i.e. Skylights). Advantage will not be responsible for previous structural issues, plumbing line damage due to improper installation from re-piping, driveway damage, gutters, soffits, nor solar panels.**

4. **Defects:** Owner understands that there may be existing defects which may not be discoverable until work has commenced. Unless specifically included in the work description and specifications, the cost for labor and materials to repair such defects is not included in the Contract Price. Owner(s) and Contractor agree that the cost for labor and materials to repair such defects will be estimated in writing as needed at the time of discovery and, upon written acceptance, the cost for same will be in added to the Contract Price.

5. **Contractor Workmanship Warranty:** Contractor warrants its workmanship against defects in the workmanship only for the period set forth in this Agreement from the date of completion of the work. However, said warranty shall be null and void under the following circumstances: (1) if Owner(s) fails to pay any sum owed to Contractor under this Agreement and any applicable change orders; (2) if Owner(s) fails to provide written notice to Contractor within ten (10) days of discovering any defect in Contractor's workmanship; (3) if Owner(s) permits any third party to alter or repair any of the work performed by Contractor in any way; (4) if defect is the result of Owner(s) failure to properly maintain and clean gutters at least twice per year; or (5) if defect is the result of Owner(s) failure to provide normal and routine care and maintenance as to the work. **Contractor does not warrant the labor of items such as caulking materials, sealant, reflective coatings, painted surfaces, or metal materials.**

6. If material has to be re ordered or re stocked because of cancellation by the customer there will be a restocking fee equal to twenty five percent (25%) of the contract price. If this contract is cancelled later than three days from execution, the customer shall pay to the Company twenty five percent (25%) of the contract price as liquidated damages, not as a penalty, and the company agrees to accept such as reasonable and just compensation for said cancellation.

APPROVING DEPARTMENTS

Attorney:	Shannon M Charles

BACKGROUND INFORMATION

- In 2007 an Interlocal Agreement was executed defining maintenance requirements with Osceola County and Reunion East Community Development District (CDD), East of Interstate I-4 along 532 and 545.
- The 2007 agreement allowed for the District to install, construct, and maintain certain improvements within the Right of Way that could consist of trees and other plantings.
- In the 2007 agreement the maintenance responsibility was defined, and the County retained absolute authority to remove the improvements or cause the improvements to be removed.
- Per the original Interlocal Agreement, either Party had the right to cancel the agreement upon sixty (60) days written notice.
- As development has occurred along the corridor, the maintenance of the landscaping has become difficult.
- The Reunion CDD is requesting to remove the south side portion of County Road 532 Right-of-Way from their maintenance responsibility. This request was reviewed by various departments, and

the Reunion CDD was asked to remove the landscaping and replace with sod for ease of County maintenance.

- The estimated cost to the County for accepting maintenance responsibility under the terms of this agreement is \$21,075.00 annually.

OWNER'S AFFIDAVIT

Reunion East Community Development District

STATE OF FLORIDA COUNTY OF PALM BEACH

BEFORE ME, the undersigned authority, personally appeared Arthur J. Falcone (“Affiant”), as President of EHOFF Acquisitions II Borrower, LLC, a Delaware limited liability company, authorized to do business in Florida, whose principal address is One Town Center Road, Suite 600, Boca Raton, Florida 33486 (the “Owner”), who being first duly sworn on oath says:

1. That Affiant knows of his own knowledge that the Owner is the fee simple title holder to certain lands located in Osceola County, Florida (the “Property”) and of certain infrastructure improvements on the Property (the “Improvements”), as more particularly described on Exhibit “A” attached hereto, and that Affiant is President of the Owner, is making this Affidavit in that capacity only, and that no recourse shall be made against Affiant individually.

2. That the Property and Improvements, as described in the Special Warranty Deed and Bill of Sale Absolute and Agreement, dated as of the date hereof, are free and clear of all liens and encumbrances except for those encumbrances and matters affecting title included in the Reunion Village Phase 4 & 5 Plat, as recorded in Plat Book 31, Page 75 and the Reunion Village 1C Replat, as recorded in Plat Book 27, Page 178 of the Official Records of Osceola County, Florida (collectively, the “Plat”).

3. That Affiant knows of no facts by reason of which the title to, or possession of, the Property and Improvements might be disputed or questioned, or by reason of which any claim to any part of the Property and Improvements might be asserted adversely to Owner.

4. That there have been no liens filed against the Property or the Improvements as a result of any labor, materials, equipment or other work authorized by Owner, its employees, or agents or of which Owner has actual knowledge, nor any unpaid bills of any nature as a result of any labor, materials, equipment or other work authorized by Owner, its employees, or agents or of which Owner has actual knowledge either for services of any architect, engineer, or surveyor, or for labor or material that may have been placed on the Property or Improvements, either in the construction or repair of the Improvements, or otherwise in connection with the Property which bills may have been incurred during the last ninety (90) days.

5. That no proceedings in bankruptcy or receivership have ever been instituted by or against the Owner, nor has Owner ever made an assignment for the benefit of its creditors.

6. That Affiant knows of no action or proceeding relating to the Property or Improvements which is now pending in any state or federal court in the United States affecting the Property, nor does Affiant know of any state or federal judgment or any federal lien of any kind or nature that now constitutes a lien or charge upon the Property or Improvements.

7. That, except as set forth in the Plat, Affiant knows of no unrecorded easements, liens, or assessments for sanitary sewers, streets, roadways, paving, other public utilities or improvements against the Property, nor are there any special assessments or taxes which are not shown as existing liens by the public records.

8. That this Affidavit is given for the purposes of inducing the Reunion East Community Development District (the "District"), a Florida community development district and local unit of special-purpose government, to accept the Owner's conveyance of the Property and Improvements to the District.

9. That there are no matters pending against Owner that could give rise to any lien(s) that could attach to the Property or the Improvements between the effective date of the Plat and the recording of the deed of conveyance, and that Affiant shall not execute nor permit the execution or recording of any instruments that would adversely affect title of the Property or the ownership of the Improvements.

10. Section 1445 of the Internal Revenue Code provides that a transferee of a U.S. real property interest must withhold tax if the transferor is a foreign person. To inform the District and Latham, Luna, Eden & Beaudine, LLP ("LLEB"), that withholding of tax is not required upon the disposition of a U.S. real property interest by Owner, Owner hereby swears, affirms and certifies the following to District and LLEB that Owner: (i) is not a foreign person, foreign corporation, foreign partnership, foreign trust or foreign estate (as those terms are defined in the Internal Revenue Code and Income Tax Regulations); (ii) is not a disregarded entity as defined in Section 1.1445-2(b)(2)(iii); (iii) is not a non-resident alien (as such term is defined in the Internal Revenue Code and Income Tax Regulations) for the purposes of U.S. income taxation; (iv) has an EIN/Federal Tax Identification Number of 84-3641210; (v) has a mailing address of One Town Center Road, Suite 600, Boca Raton, Florida 33486. Affiant understands that this certification may be disclosed to the Internal Revenue Service by Owner and that any false statement contained herein could be punished by fine, imprisonment, or both. Affiant understands that the District and LLEB are relying on this certification in determining whether withholding is required upon said transfer.

11. That Affiant is familiar with the nature of an oath and with the penalties as provided by the laws of the State of Florida for falsely swearing to statements made in an instrument of this nature. Affiant further certifies that he has read the full facts set forth in this Affidavit and understands its content and context to be correct in all respects.

SECTION XII

To: Reunion East Community Development District Board of Supervisors
From: District Counsel (Jan Albanese Carpenter, Esq. and Kristen Trucco, Esq.)
Re: Irrigation Water System Operating Agreement
Date: August 2, 2023

For a number of years we have worked with counsel for Kingwood Orlando Reunion Resort, LLC (“Kingwood”) and the District’s bond counsel to implement an operating agreement for the irrigation water system throughout the community (the “Agreement”). Although residents will not notice any changes stemming from this Agreement on a day-to-day basis, it is in the best interest of the District to memorialize the parties’ obligations and understanding of legal interests in the system, including maintenance and operation duties, in order to provide clarity and in order to ensure compliance with law. As background, the developer of Reunion, through the Master HOA, had operated the system but there was a dispute at one time about the District’s legal interests in portions of the irrigation system (which were funded, at least in part, by tax-exempt bonds).

Attached is a copy of the draft Agreement for your review. Under the Agreement, Kingwood acknowledges the District’s legal interests in public portions of the system and states that Kingwood will continue to manage the sourcing, storage and supply of irrigation water (both through the use of groundwater and reclaimed water, as permitted by Tohopekaliga Water Authority (“TOHO”)) and will continue to manage, operate, maintain, repair, replace and monitor the interconnected irrigation system for the community and ensure compliance with the South Florida Water Management District’s consumptive use permit. Kingwood further agrees to follow a rate making process, as set forth in Paragraph 4 of the Agreement, including furnishing the District with proposed cost and rate changes for irrigation services for review and approval at least 90 days prior to the time proposed changes are intended to take effect, and agrees to use good faith and commercially reasonable measures for any future cost modifications, including Consumer Price Index percentage changes for “Water and Sewer Maintenance,” and percentage changes in the retail rate for reclaimed water published by TOHO, etc. Under Paragraph 4 of the Agreement, Kingwood also agrees that the rates set forth in the Agreement are similar or equivalent to rates of other TOHO supplied communities in Central Florida and that Kingwood has retained a professional rate-making consultant to provide support for such rates. Attached as Exhibit “A” is a data comparison worksheet showing the blended average rates (for the “Base Assessment” plus “Services Area Assessment”) for other providers. For comparison purposes: the District’s blended average is **\$38.42**; TOHO’s blended average is **\$39.23**; and TOHO’s Encore Club’s blended average in 2019 was **\$81.66**.

Kingwood further agrees that the District will not be charged for irrigation services, in exchange for Kingwood’s use of the District’s portions of the irrigation system (for the sole purpose of providing irrigation services to the community) and that Kingwood is responsible for obtaining and paying for all necessary permits and other governmental approvals related to the system.

Kingwood is further required to indemnify, hold harmless and defend the District against any and all liabilities, claims, penalties, suits, fines, losses and liabilities, and all costs and expenses incident to such, arising out of Kingwood's breach of any provision of the Agreement and/or any negligent or intentional act or omission of Kingwood related to the Agreement, and Kingwood agrees to promptly repair any damage caused to property and/or improvements owned by the District.

The first step is to approve the Agreement to memorialize the operation and use of the District's system by Kingwood/Association. The next step is procedural: to schedule a public hearing for the District to confirm the 2023 Rate Schedule attached to the Agreement as Exhibit "A." We have requested any additional back-up on the 2023 rates and we will make that available to you prior to the actual public hearing.

As always, please contact one of us prior to the meeting, by email at jcarpenter@lathamluna.com or ktrucco@lathamluna.com or by telephone at 407-481-5872 or 407-481-5806, if you have any questions or would like to discuss this Agreement further.

Irrigation Water System Operating Agreement

This Irrigation Water System Operating Agreement (this “**Agreement**”) is made and entered into as of _____, 2023 by and among **Kingwood Orlando Reunion Resort, LLC**, a Florida limited liability company (“**Kingwood**”), as successor to GINN-LA ORLANDO, LLP, a Georgia limited partnership, and the **Reunion East Community Development District**, a special purpose unit of local government pursuant to Chapter 190, *Florida Statutes* (the “**Reunion East CDD**”) and their successors and assigns.

Background Information

1. The Reunion East CDD was established pursuant to the Board of County Commissioners for Osceola County Ordinance Number 01-31 and Chapter 190, *Florida Statutes*, and has been expanded to include approximately 1,279 acres located in unincorporated Osceola County, Florida (“**Community**”).
2. Within the Community it is estimated that there is a total of approximately 576 irrigated acres comprised of approximately 323 acres of golf course turf and 253 acres of landscaping within residential communities, road rights of way, amenity areas, condominium associations areas, commercial parcels, buffer areas, and other properties within the Community.
3. Kingwood owns the golf courses and resort areas within the Community and conducts operations on a daily basis, 24 hours per day, 7 days per week, employing a team of over 400 service professionals, including experts in irrigation and horticulture, landscape management, as well as engineering and utility systems.
4. Costs related to the Community’s irrigation system include its design, construction, and installation, including certain ponds, piping, wells, permits, control systems, monitoring systems and pumping systems (collectively, the “**Overall Irrigation System**”), as well as consulting fees and easement costs. The Reunion East CDD has a legal interest in certain public elements of the Overall Irrigation System used to provide irrigation services to residential, commercial and common landscaping areas within the Community, including those which may be located on Reunion East CDD property, within easements in favor of the Reunion East CDD, and within certain right-of way tracts within the Community. The Reunion East CDD’s contributions are evidenced by the use of tax-exempt bond funds for its portion of the construction of the Overall Irrigation System, developer contributions, and the District Engineer’s Reports. For ease of reference, and solely for the purposes of this Agreement, components of the Overall Irrigation System for which the Reunion East CDD has a legal interest shall be referred to as the “**District’s Irrigation System.**” Kingwood has a legal interest in certain private elements of the Overall Irrigation System, including those located on private property, within easements in favor of Kingwood on other properties, and within certain roadway tracts or public properties. Since installation, Kingwood has expended substantial funds on the Overall Irrigation System, including to procure the maintenance of permits and the replacement and maintenance of components of the Overall Irrigation System.

5. The parties agree that for the Term of this Agreement Kingwood shall manage the sourcing, storage, and supply of irrigation water (both groundwater and reclaimed water), and shall also continue to manage, operate, maintain, repair, replace (including capital repairs), and monitor the interconnected Overall Irrigation System for the Community and to do so, shall manage the District's Irrigation System, in accordance with the terms herein and applicable regulations/Florida law (the "**Irrigation Services**"). Individual property owners shall not maintain or operate any component of the Overall Irrigation System. Notwithstanding Kingwood's management of the District's Irrigation System under the terms of this Agreement, the Reunion East CDD retains its legal interest and associated rights (including, but not limited to, the ability to manage and control the District's Irrigation System) with respect to the District's Irrigation System.

6. Kingwood is the permittee for the consumptive use of irrigation water within the Community, as evidenced by the South Florida Water Management District ("**SFWMD**") Water Use Permit #49-01107-W ("**Permit**") and has maintained and renewed the Permit, submitted all monitoring reports, studies, and compliance data, and coordinated with the SFWMD and other interested parties. Kingwood has absorbed considerable cost associated with the Permit, compliance thereto, and its repeated renewal, efforts to cause changes in the source of irrigation water, along with other regulatory and governmental approvals and permits related to the Overall Irrigation System and Irrigation Services. Kingwood, as the successor to the master developer of the Community, and as declarant of the Reunion Resort & Club of Orlando Master Association, Inc., a Florida not for profit corporation (the "**Association**"), together with the Reunion East CDD, planned and designed the Community to be master managed with respect to landscape maintenance and Irrigation Services. Kingwood has implemented the management of privately and publicly landscaped and irrigation properties within the Community through self-performance and engagement of service providers to assist in the Overall Irrigation System operations.

7. The Reunion East CDD consents to Kingwood assigning and/or sharing its maintenance and billing obligations related to the Overall Irrigation System with the Association, in accordance with the terms herein. In the event Kingwood desires to use another entity for maintenance and billing obligations for the Overall Irrigation System, the prior written consent of the Reunion East CDD is required, which shall not be unreasonably withheld or delayed. Kingwood may assign to the Association the duty of assessing property owners (other than the Reunion East CDD) on a monthly basis, in accordance with the terms herein, through the rights, authorities and responsibilities granted by the Reunion Resort of Orlando Declaration of Covenants, Conditions, Restrictions, and Easements (the "**Declaration**"), which includes funds for the cost of landscaping and irrigation management.

8. The SFWMD had previously permitted the Community to continue to use groundwater as the primary source of irrigation water for the Community. Kingwood's predecessor and the Reunion East CDD planned, designed, and permitted the supply of irrigation water such that the Community could be self-sufficient and allowed the delivery of irrigation water at economically feasible rates.

9. The SFWMD has mandated that the Community use reclaimed water as the primary source of irrigation water when available instead of groundwater. The Tohopekaliga Water Authority ("**Toho**") is the entity responsible for treating and delivering reclaimed water to the

Community. Because of the mandate, Kingwood and Toho evaluated the existing reclaimed water infrastructure and determined it is inadequate to serve the entire Community and deliver the requisite irrigation water required for the landscaped and irrigated areas.

10. Kingwood, facilitated by the SFWMD, negotiated with Toho the supply of reclaimed water at levels approved in the existing Permit and to account for seasonal and diurnal variations in demand and water supply. Negotiations regarding the Permit and Toho reclaimed water supply culminated in the execution of an *Agreement Between the Tohopekaliga Water Authority and Kingwood Orlando Reunion Resort, LLC Regarding Reclaimed Water Delivery* (the “**2019 Toho Agreement**”), recorded in the public records of Osceola County, Florida (CFN#2019070175). The 2019 Toho Agreement includes the following provisions:

- i. Kingwood agreed to provide a new reclaimed water transmission line and associated infrastructure to provide reclaimed water to the Community using existing irrigation water facilities. Upon completion, Kingwood shall retain the new transmission line and associated infrastructure and shall convey to Toho the improvements upstream of the meter, and which are within public County Road 545.
- ii. The Community will be provided reclaimed water at a substantial reduction from Toho’s current market rates, a benefit that will translate into lower costs of Irrigation Services to property owners within the Community.
- iii. Specific acknowledgement of existing agreements which initially set forth options for service to the Community for potable water, wastewater, and reclaimed water; the 2019 Toho Agreement, represents that it does not in any way amend or modify the existing agreements:
 1. City of Kissimmee/Ginn-LA Orlando II, LLP, Water, Wastewater, and Reclaimed Water System Developer’s Service Agreement.
 2. Reunion Reclaimed Water Master Planning Interlocal Agreement.
 3. Reunion East Water Delivery Interlocal Agreement.
 4. Reunion West Easement and Reclaimed Water Delivery Interlocal Agreement.

11. SFWMD issued Kingwood a modified Permit that provides for the construction of the new reclaimed water transmission line, a period of testing and confirmation of performance for Toho’s delivery of reclaimed water, a transition of sources for irrigation water from groundwater as the primary source to reclaimed as the primary source, and ultimately for groundwater to be used as a supplemental and backup source of irrigation for the Community. The SFWMD also issued Toho modified water use permits related to the allocation of groundwater

withdrawal once Toho satisfies the requirements of delivery of reliable and quality service of reclaimed water to Kingwood of use as irrigation water for the Community.

12. Kingwood agrees to cooperatively assist in establishing rates to pay for Irrigation Services, with input and approval from the Reunion East CDD as set forth herein, which Kingwood will incorporate into the Association's billing/assessment of property owners, and which will satisfy applicable provisions of Chapter 190, *Florida Statutes*, including Section 190.035, *Florida Statutes*.

13. The Parties agree that it is in the best interest of the Community for (a) Kingwood to provide the Irrigation Services to a part of the Overall Irrigation System (now with the primary supply of irrigation coming from reclaimed water and use of supplemental groundwater as needed), and for (b) Kingwood to maintain, retain the Association or other approved management company, to exercise its governance to provide billing/assessment for the Irrigation Services provided by Kingwood to the Community, and (c) the Reunion East CDD to continue to contribute the use of the District's Irrigation System facilities in exchange for no charges to the Reunion East CDD for Irrigation Services; therefore, the Parties desire to enter into this Agreement to formalize their respective rights and responsibilities.

Operative Provisions

1. **Incorporation of Background Information.** The background information stated above is true and correct and is incorporated by reference as a material part of this Agreement. The parties have entered into this Agreement for the management of the Overall Irrigation System in an appropriate, cost-effective, and legally sufficient manner, to provide the Community with Irrigation Services and to assure compliance with Florida law.

2. **Control and Management Responsibility.** The parties agree that Kingwood shall manage and operate the District's Irrigation System in accordance with the standards set forth herein, applicable regulations and permits, and Florida law. Kingwood hereby accepts such duties. Notwithstanding the foregoing, the parties agree that the Reunion East CDD retains legal interest to the District's Irrigation System.

3. **License to Use and Access Reunion East CDD Infrastructure and Property.** Subject to the terms and conditions of this Agreement, the Reunion East CDD hereby grants Kingwood, its employees, agents, and contractors, a license to use and access Reunion East CDD irrigation infrastructure on Reunion East CDD's property or within the Reunion East CDD's easements for the sole purpose of providing Irrigation Services to the Community. Kingwood shall not cause damage to or materially and unnecessarily interfere, on a continuing and unmitigated basis, with the use, operation or maintenance of any property or improvements owned by the Reunion East CDD. Kingwood shall promptly repair any damage that Kingwood or its agents cause to property and/or improvements owned by the Reunion East CDD and shall maintain all property and/or improvements in a commercially reasonable, working condition.

4. Fee Schedule for Irrigation Services and Process for Increases.

a. Kingwood hereby acknowledges and agrees that the Reunion East CDD must adhere to the requirements of Chapter 190, *Florida Statutes*, as applicable, including the requirement that the Reunion East CDD must approve any rates charged for the District's Irrigation System, in accordance with the public hearing requirements for setting rates in Section 190.035, *Florida Statutes*. The costs for managing irrigation are to be borne by Kingwood, and shared by property owners through irrigation rates, excluding the Reunion East CDD.

b. The "**Rate Schedule Irrigation Service (2023 Rates)**" attached hereto as **Exhibit "A"**, details costs for Irrigation Services (the "**Rate Schedule**") for the calendar year 2023. Such rates remain in effect until approved by Reunion East CDD at a scheduled meeting. Kingwood warrants that the costs of the Irrigation Service bear a reasonable relationship to all costs Kingwood anticipates will be incurred in the following calendar year with respect to the provision of Irrigation Services (including adequate and prudent reserves).

c. Kingwood will use good faith commercially reasonable efforts to consider the following in developing future Irrigation Service cost modifications to propose to the Reunion East CDD:

- i. The percentage change in the Consumer Price Index for "Water and Sewerage Maintenance" as published by the United States Government Bureau of Labor Statistics;
- ii. The percentage change in the retail rate for reclaimed water as published by Toho;
- iii. The amount of irrigation water delivered relative to projected use amounts; and
- iv. Expected life cycles of District's Irrigation System components, reasonable and prudent extension of useful life, and associated plans for maintenance, repair and replacement and related reserves.
- v. Commercially reasonable management fees payable to the Association and to Kingwood for their services.

d. Kingwood will furnish the Reunion East CDD a copy of the proposed costs and rate changes for Irrigation Services for review and approval, at least 90 days prior to the time the proposed changes are intended to take effect.

e. Kingwood has acknowledged and agreed that all rates set forth reflect rates for the Irrigation Services rendered by Kingwood as outlined in this Agreement, are similar or equivalent rates of other Toho supplied communities in Central Florida; Kingwood will retain a rate-making

consultant to provide to the Reunion East CDD a detailed rate report to support Kingwood's proposed rates. The Reunion East CDD shall insure that the District's Irrigation System service rates are advertised to comply with the applicable provisions of Chapter 190, *Florida Statutes*.

f. Given the nature of the Overall Irrigation System, Capital Expenses will be included in the rates charged to the landowners. Kingwood will notify the Reunion East CDD, if, in the best judgment of Kingwood, any Capital Expense cannot be included in the rates charged to the landowners. Such notification must include a description of the Capital Expense and an explanation regarding why it cannot be included in the rates charged for the Overall Irrigation System to landowners. A "Capital Expense" is defined as any capital expenditure (not normal operational maintenance and repairs), upgrade or long-term repair that is in excess of \$50,000.

5. Duties of Kingwood.

a. Kingwood agrees to provide the Irrigation Services to the Community; including (without limitation) the timely payment to Toho for all reclaimed water supplied under the 2019 Toho Agreement. Kingwood shall be solely responsible for staffing, budgets, financing, billing and collection of fees, charges, etc., necessary to perform the operation and maintenance of responsibilities in this Agreement.

b. Kingwood shall cause all work related to the Irrigation Services to be done, furnished, and performed in a workmanlike manner and in accordance with the best management practices in the industry.

c. Kingwood shall use due care to protect and maintain the District's Irrigation System, other property of the Reunion East CDD and residents and landowners of the Community from damage. Kingwood shall make, or cause to be made, routine repair work and normal maintenance of the District's Irrigation System as required for the operation of and physical protection of the District's Irrigation System, or as required under applicable permits. Kingwood shall make or cause to be made, emergency repairs necessary for preservation of the District's Irrigation System and safety of persons or property, or to avoid any suspension of service.

d. Kingwood shall be responsible for obtaining and paying for all necessary permits and other governmental approvals relating to the Overall Irrigation System.

e. In connection with the Overall Irrigation System and Irrigation Services, Kingwood shall comply, and shall cause the Association to comply, with all applicable laws, statutes, regulations, rules, ordinances, policies, permits, orders, including operational, safety, insurance, and other requirements imposed by federal, state, county, or other regulatory agencies.

f. Kingwood acknowledges that the District is a special purpose government which must comply with all requirements of Florida law, including Chapter 190, *Florida Statutes*, and Chapters 119 and 286.

g. Kingwood shall promptly and properly (or shall cause) pay for all contractors retained, labor employed, materials purchase and equipment hired by, to perform under this

Agreement. Kingwood shall cause the District's Irrigation System to be free from any materialmen or mechanic liens and claims or notices in respect to such liens and claims which arise by reason of Kingwood's (or its agents including the Association) performance under this Agreement and Kingwood shall immediately discharge any such claim of lien.

h. Kingwood shall promptly investigate and provide a full written report to the District for all accidents or claims for damage relating to the operation and/or maintenance of the District's Irrigation System. The report shall include a description of any damage or destruction of property and the estimated cost of repair. Kingwood shall and shall cause the Association to cooperate and make any and all reports required by any insurance company of the District. Kingwood or the Association shall not file any claims or reports with the District's insurers, without the District's prior written consent.

i. Kingwood covenants and agrees that it does not and will not through the Term of this Agreement, hold more than 20% of the voting power on the Reunion East CDD's Board of Supervisors.

6. Initial Term, Renewal and Termination.

a. The initial term of this Agreement is 20 years from the date of this Agreement.

b. This Agreement shall automatically renew for three successive 20-year renewal periods, unless either party gives 180 days' notice of its intent not to renew unless earlier terminated pursuant to Section 6 below.

7. Early Termination. If Kingwood fails to provide Irrigation Services for 90 days (subject to the force majeure provisions below), and such failure jeopardizes adequate Irrigation Services to the Community that results in continuing, unmitigated, and material damages to Reunion East CDD or the property owners in the Community, and after the conclusion of the dispute resolution process described below, then the Reunion East CDD may elect to unilaterally terminate this Agreement prior to the end of the current term, with (90 day) prior written notice. The District shall have all rights to operate the District Irrigation System and Kingwood agrees to cooperate with the District in such efforts to prevent waste, damage, and to ensure efficient operations of the Overall Irrigation System.

8. Events of Default. Subject to the force majeure provisions below, any breach of the obligations in this Agreement which is not cured within 90 days after receipt of written notice thereof, will constitute an "Event of Default" or "Default" under this Agreement. In the event that any party is under an Event of Default the non-defaulting party's sole remedy is the right to seek specific performance of the defaulting party's obligations under this Agreement. In no event shall any party be entitled to seek or be awarded of damages of any kind, including but not limited to special, consequential, or punitive damages.

9. Dispute Resolution. In the event of an Event of Default or other dispute arising out of or related to this Agreement, the parties mutually agree to undertake the following informal

settlement process to resolve their differences as a condition precedent to the initiation of any litigation:

a. Notice by the initiating party shall be given of any dispute between it and the other party or parties, as applicable, in writing, within 10 business days of the initiating party's discovery of the dispute.

b. Within 30 calendar days of receipt of the notice, or in the case of the Reunion East CDD, within 30 calendar days of the Reunion East CDD duly authorizing its representative at a Reunion East CDD Meeting, representatives of each party with the authority to recommend a settlement will meet and attempt to reach an agreement which can be taken for final approval by the parties.

c. If the parties' representatives cannot reach agreement, then within 45 calendar days of the meeting, or the first Reunion East CDD meeting after the 45 day period terminates, the parties shall convene a formal mediation with a mediator of their mutual choosing to undertake a settlement. If the parties cannot mutually agree to a mediation within 30 days after the 45-day period expires, the mediation shall be deemed to have failed and litigation may proceed as provided in subsection (d) hereof.

d. If the parties cannot reach settlement through the mediation process, any party may then initiate litigation no sooner than 45 calendar days after the notice of the parties' failure to settle has been sent by the mediator.

Other than the District's obligations to comply with Chapters 119 and 286, *Florida Statutes* all allegations pursuant to this Section are confidential and shall be treated as compromise and settlement negotiations for purposes of applicable rules of evidence. The parties understand and agree that the Reunion East CDD will have to have any mediated settlement approved by its Board of Supervisors, which the Reunion East CDD shall seek to do at the next regular meeting following such mediation.

10. Collateral Assignment of Permit. If Kingwood is given written notice of any Event of Default in its obligation to provide the Irrigation Services, fails to cure such default within 90 days, and after the conclusion of the dispute resolution process set forth in Section 8 above, the Default is not cured, and after receipt of a written request by the Reunion East CDD, then Kingwood shall immediately assign to the Reunion East CDD, to the extent assignable, Kingwood's rights under the Permit related to the District's Irrigation System. This collateral assignment shall only be effective upon the Reunion East CDD's exercise of its rights hereunder and any regulatory and governmental jurisdiction having authority providing consent to the assignment. Kingwood shall complete and execute all documents and shall cooperate with all efforts to assign the Permit. This section shall survive termination of this Agreement.

11. Force Majeure.

a. Any delay or failure in the performance by any party hereunder shall be excused if and to the extent caused by the occurrence of a Force Majeure. For purposes of this Agreement,

Force Majeure shall mean an act of God, strikes, lockouts, act of public enemy, lightning, fire, storm, flood, governmental restraints or any other cause of delay beyond the reasonable control of the party claiming the applicability of the Force Majeure doctrine (financial inability is excepted).

b. In the event that Toho is unable to provide adequate reclaimed water due to conditions outside the control of the parties and Kingwood is unable to supply sufficient groundwater pursuant to Permit restrictions imposed by SFWMD then such eventuality would be considered Force Majeure relieving the parties of the obligation to fully perform during the period of water shortage such Force Majeure occurrence.

12. Insurance.

a. Kingwood, and its successors, shall, throughout the performance of its services pursuant to this Agreement, maintain at a minimum:

(i) Occurrence based comprehensive general liability insurance (including broad form contractual coverage), with a minimum limit of \$2,000,000 single limit per occurrence, protecting it and the Reunion East CDD from claims for bodily injury (including death), property damage, contractual liability, products liability and personal injury which may arise from or in connection with the performance of Kingwood's services under this Agreement or from or out of any act or omission of Kingwood, its officers, directors, agents, and employees;

(ii) Occurrence based automobile liability insurance including bodily injury and property damage, including all vehicles owned, leased, hired and non-owned vehicles with limits of not less than \$1,000,000.00 combined single limit covering all work performed hereunder;

(iii) Workers' compensation insurance as required by applicable law (or employer's liability insurance with respect to any employee not covered by workers' compensation) with minimum limits of \$100,000 per occurrence; and

(iv) Employers liability, with a minimum coverage level of \$1,000,000.

b. Kingwood shall cause the Association or its successor, throughout the performance of its services pursuant to this Agreement, to procure and maintain professional liability insurance with a minimum limit of \$1,000,000 protecting it and the Reunion East CDD from claims which may arise from or in connection with the performance of the Association's services under this Agreement or from or out of any act or omission of the Association, its officers, directors, agents, and employees.

c. All such insurance shall be with companies and on forms acceptable to the Reunion East CDD and shall provide that the coverage thereunder may not be reduced or canceled unless thirty (30) days prior written notice thereof is furnished to the Reunion East CDD; the insurance required under subsection (a)(i) and (b) shall name the Reunion East CDD as an additional insured. Certificates of insurance (and copies of all policies, if required by the Reunion East CDD) shall be furnished to the Reunion East CDD. In the event of any cancellation or reduction of coverage,

Kingwood shall obtain substitute coverage as required under this Agreement, without any lapse of coverage to the Reunion East CDD whatsoever.

d. The minimum levels of insurance shall be adjusted based on consumer price indices, risk metrics, and asset value every ten (10) years this Agreement is in force.

13. Indemnification. Kingwood shall indemnify, save harmless and defend the Reunion East CDD, their officers, directors, board members, employees, agents and assigns, from and against any and all liabilities, claims, penalties, forfeitures, suits, legal or administrative proceedings, demands, fines, losses, liabilities and interests, and any and all costs and expenses incident thereto (including costs of defense, settlement and reasonable attorneys' fees, which shall include fees incurred in any administrative, judicial or appellate proceeding) which the Reunion East CDD, its officers, directors, board members, employees, agents and assigns, may hereafter incur, become responsible for or pay out to the extent arising out of (i) Kingwood's breach of any term or provision of this Agreement, and/or (ii) any negligent or intentional act or omission of Kingwood, its agents, employees or sub-contractors, including the Association or other management company retained by Kingwood, related to or in the performance of this Agreement.

14. No Inconsistent Tax Position. Kingwood agrees that it is not entitled to and will not take any tax position that is inconsistent with being a service provider to the Reunion East CDD with respect to the District's Irrigation System. For example, Kingwood agrees not to claim any depreciation or amortization deduction, investment tax credit, or deduction for any payment made to Kingwood with respect to the District's Irrigation System.

15. Safe Harbor Provisions. The parties intend that this Agreement comply with the safe-harbor provisions of Rev. Proc. 2017-13 and agree that the provisions thereof should be interpreted to allow for such compliance to the fullest extent possible given principles of legal construction.

16. Reunion East CDD.

a. The Reunion East CDD is a local unit of special purpose government created in accordance with the Uniform Community Development District Act of 1980, Chapter 190, *Florida Statutes*. Kingwood agrees that nothing contained herein, or in the Agreement, or in the Terms and Conditions, shall cause or be construed as a waiver of the Reunion East CDD's immunity or limitations on liability granted pursuant to Section 768.28, *Florida Statutes*, or other law, and nothing in this Agreement shall inure to the benefit of any third party for the purpose of allowing any claim which could otherwise be barred under the Doctrine of Sovereign Immunity or by operation of law.

b. Nothing in this Agreement shall be construed as a waiver or relinquishment of any rights, remedies, claims or defenses held by the Reunion East CDD.

17. Amendment. This Agreement may not be altered, changed or amended, except by an instrument in writing, signed by all parties.

18. Governing Law and Venue. This Agreement shall be governed by the Laws of the State of Florida. Any action to enforce any provisions of this Agreement shall be undertaken in the Circuit Court for Osceola County, Florida.

19. Attorney's Fees and Costs. In the event that any party is required to enforce this Agreement by court proceedings, the prevailing party shall be entitled to recover all fees and costs incurred, including reasonable attorneys' fees and costs for trial and appellate proceedings.

20. Relationship Between the Parties. Nothing in this Agreement shall be deemed to create a partnership, joint venture, or employer-employee relationship between the parties.

21. Public Records Act & Compliance with E-Verify System.

I. Compliance with Public Records Act

Kingwood understands and agrees that all documents of any kind relating to this Agreement may be public records and, accordingly, Kingwood agrees, and shall cause the Association, to comply with all applicable provisions of Florida public records law, including but not limited to the provisions of Chapter 119, *Florida Statutes*. Kingwood acknowledges and agrees that the public records custodian of the Reunion East CDD is the District Manager, which is currently Governmental Management Services – Central Florida, LLC (the “**Public Records Custodian**”). Kingwood shall, and shall cause the Association, to the extent applicable by law:

- a. Keep and maintain public records required by the Reunion East CDD to perform services.
- b. Upon request by the Reunion East CDD, provide Reunion East CDD with the requested public records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, *Florida Statutes*;
- c. Ensure that public records which are exempt or confidential, and exempt from public records disclosure requirements, are not disclosed except as authorized by law for the duration of the Agreement term and following the Agreement term if Kingwood does not transfer the records to the Public Records Custodian of the Reunion East CDD; and
- d. Upon completion of the Agreement, transfer to the Reunion East CDD, at no cost, all public records in Kingwood's or the Association's possession or, alternatively, keep, maintain, and meet all applicable requirements for retaining public records pursuant to Florida laws.

II. Compliance with E-Verify System.

a. Kingwood shall comply with and perform all applicable provisions and requirements of Section 448.095, *Florida Statutes* and Section 448.09(1), *Florida Statutes*. Accordingly, to the extent required by Section 448.095, *Florida Statutes*, Kingwood shall enroll with and use the United States Department of Homeland Security's E-Verify system to verify the work authorization status of all newly hired employees. The Reunion East CDD may terminate

this Agreement immediately for cause if there is a good faith belief that Kingwood has knowingly violated Section 448.091, *Florida Statutes*.

b. If Kingwood anticipates entering into agreements with a subcontractor to perform the Irrigation Services, Kingwood will not enter into the agreement without first receiving an affidavit from the entity regarding compliance with Section 448.095, *Florida Statutes*, and stating that the entity does not employ, contract with, or subcontract with an unauthorized alien. Kingwood shall maintain a copy of such affidavit for the duration of the agreement and provide a copy to the Reunion East CDD upon request. In the event that the Reunion East CDD has a good faith belief that a subcontractor has knowingly violated Section 448.095, *Florida Statutes*, but Kingwood has otherwise complied with its obligations hereunder, the District shall promptly notify Kingwood. Kingwood agrees to immediately terminate the agreement with the subcontractor upon notice from the Reunion East CDD. Further, absent such notification from the Reunion East CDD, Kingwood or any subcontractor who has a good faith belief that a person or entity with which it is contracting has knowingly violated Section 448.09(1), *Florida Statutes*, shall promptly terminate its agreement with such person or entity.

c. By entering into this Agreement, Kingwood represents that no public employer has terminated a contract with Kingwood under Section 448.095(2)(c), *Florida Statutes*, within the year immediately preceding the date of this Agreement.

22. Headings. The headings in this Agreement are inserted for convenience of reference only and shall not be deemed to modify or otherwise affect any of the provisions of this Agreement.

23. Arm's Length Transaction and Interpretation. This Agreement has been negotiated fully between the parties as an arm's length transaction. The parties have participated and had an equal opportunity to participate in the drafting of this Agreement. In the case of any ambiguity or a dispute concerning the interpretation of any provision of this Agreement, the parties are each deemed to have drafted, chosen, and selected the language, and any doubtful language will not be interpreted or construed against any party.

24. Authority. Each individual executing this Agreement represents and warrants that such individual is duly authorized to execute and deliver this Agreement on behalf of that party.

25. Counterparts. This Agreement may be executed in any number of counterparts, each of which when executed and delivered shall be an original, and all such counterparts together shall constitute, but one and the same instrument.

26. Notices. Whenever any party desires to give notice to the other parties, it must be given by written notice sent by certified United States mail with return receipt requested or a nationally recognized overnight delivery service to the addresses below. In the event that any party undergoes a change in address or contact information, notification to the other parties shall be made.

Reunion Resort & Club of Orlando

Irrigation Water Fees

The Reunion Resort & Club of Orlando Master Homeowner Association (Association) assesses property owners for various costs associated with managing and maintaining the master planned development. These costs include services for landscape and hardscape maintenance, including the cost of irrigation water. The Association budget reflects separate line items for different expense types related to landscape management. Irrigation water costs are allocated by two types of fees: base fees and service area assessments.

Base Assessment (*Access Fee*)

The base fee covers the anticipated water required to irrigate the common areas of the community and a uniform unit-based appropriation of water for each development parcel. Each unit owner pays the same base fee. The base fee for 2023 budget year is 34.92 per unit per month. Per the Association budget, this is reflected under the Utilities category, individual line item - Base Irrigation Water Access Fees.

Service Area Assessments (*Use Fee*)

Service area assessments cover the anticipated water required to irrigate specific development parcels beyond the base fee appropriated volume. For units with the lowest anticipated water requirements, there is no service area assessment, since the base fee is intended to cover the water cost for the lowest irrigable area for any unit. Units that are within specific development parcels having greater amounts of irrigable area have higher service area assessments. The service area assessment for irrigation water in the 2023 Association budget year follow:

<i>Community</i>	<i>Use Fee</i>
<i>Carriage Pointe</i>	0.00
<i>Center Court Ridge</i>	0.00
<i>Heritage Crossing</i>	0.00
<i>Homestead</i>	7.90
<i>Liberty Bluff</i>	0.00
<i>Patriots Landing</i>	6.90
<i>Reunion Grande</i>	0.00
<i>Reunion Village</i>	13.00
<i>Seven Eagles</i>	0.00
<i>Spectrum</i>	0.00
<i>Terraces</i>	0.00
<i>Villas at Reunion Square</i>	0.00

The amount of water anticipated for the community is based on the approved water use permit volumes. The amount of irrigation water projected for specific development parcels is based on the characteristics of each development described and detailed per filed permit documentation. Units within a specific development parcel are allocated the same irrigation water (e.g. irrigable water for the specific development parcel divided by the number of units within the development parcel).

Several factors influence the amount of irrigation water actually used in maintaining landscape within the community, including the amount and frequency of rainfall, landscape management practices employed by the service companies engaged to perform maintenance, climatic variables (e.g. humidity, cloud cover, temperature, etc.), new vegetation and types of planted vegetation, level of service and expected quality of supported vegetation, along with several other variables. Irrigation water patterns and usage typically change throughout the year, season to season, and even year to year. The projected use is based on the 2 in 10 year drought, which is the metric used by permitting agencies for water use allocations, along with consideration for historic use patterns, efficiencies and implementation of BMPs, etc.
